ABOUT

A self taught creative tech enthusiast. Trying to learn everything I can about the field. I love to create, to push the boundaries and try new things. Some of my favorite hobbies are coding, music, cooking, sleeping, bug hunting, researching and memes . The more I learn about technology the more excited I get about it

EXPERIENCE

Freelancing

2021 - Present

I have been doing some sorts of projects for myself like app development, webpage designing and also dealing with clients receiving good feedback .

EDUCATION

Rupandehi Lilaram Neupane Secondary School | Siddarthanagar-8,Rupandehi

2076 - Present

PROJECTS

Fire Link — a file to url creating app

This was my first ever own project which is available on google play. The main job of the app is to share the files worldwide in no time by creating its download url.

Master link — a url shortening app

The app is used to convert a long url into a short url or custom url. This app used cutlery's API to short the url.

SKILLS

Android Development
IOS Development
Desktop Development
Web Development
Graphics Designing
Digital Marketing

LANGUAGES

Nepal,
English
Hindi
